PROFESSIONAL SUMMARY

Final-year Information Science Engineering student (graduating 2027, CGPA 9.14) with hands-on experience across full-stack development, AI/ML integration, cloud applications, and database-driven systems. Skilled in Java, Python, C/C++, JavaScript, SQL, React.js, Node.js, Flask, REST APIs, and MongoDB, with a strong foundation in Data Structures, Algorithms, and Object-Oriented Programming. Internship experience at IBM SkillsBuild and Hindustan Aeronautics Limited (HAL), plus independently built projects including a production-grade AI resume-matching engine. Self-driven, curious, and quick to pick up new tools — open to roles across Software Development, Full-Stack Engineering, AI/ML, Data Analytics, and QA.

EDUCATION

M S Ramaiah University of Applied Sciences, Bengaluru
B.Tech - Information Science & Engineering
CGPA: 9.14

2023 -- 2027

EXPERIENCE

Student Intern - Full Stack Development | Hindustan Aeronautics Limited (HAL)

Aug 2025 -- Sep 2025

- Developed an internal Trainee Management Portal integrated with SQL databases.
- Implemented secure authentication, CRUD operations, dashboards, and trainee record management.
- Collaborated with HR and faculty; solution adopted by HAL HR Department.

AI Developer & Cloud Application Intern | IBM SkillsBuild

Jul 2025 -- Aug 2025

- Built an AI-powered Nutrition Assistant using IBM Watsonx.ai and Watson Assistant.
- Developed a cloud-based application using React.js, IBM Cloud, and Cloudant NoSQL.
- Implemented conversational AI and personalized recommendations.

PROJECTS

AI Resume Analyser | *FastAPI, Python, React 19, TypeScript, Tailwind CSS, PyPDF, TF-IDF/Cosine Similarity*

- Built a production-grade full-stack system that parses PDF resumes, segments them into sections via a heuristic regex engine, and extracts a 6-domain skill taxonomy using set algebra for keyword gap analysis.
- Designed a hybrid ATS scoring algorithm combining skill match (45%), vector cosine similarity via TF-IDF (35%), and structural section scoring (20%), with a React 19 + TypeScript client featuring an animated SVG score visualization and PDF report export.

AI-Powered PCOS/PCOD Awareness & Management Platform | *React.js, Node.js, Express.js, MongoDB*

- Built a healthcare platform with symptom tracking, AI recommendations, BMI calculator, period prediction, secure authentication, and REST APIs.

Mini Payment Gateway Simulator | *Next.js, TypeScript, REST APIs*

- Built a payment processing simulator with transaction validation, fraud detection, retry logic, and an analytics dashboard for real-time tracking.

Sankalp Sathi - Companion Support System | *Python, Flask, HTML, CSS, JavaScript*

- Developed a platform with authentication, task management, emergency support, chat, and feedback modules.

TECHNICAL SKILLS

Core CS: Object-Oriented Design, Data Structures & Algorithms, Complexity Analysis, Operating Systems, Computer Networks

Languages: C/C++, Python, Java, JavaScript, TypeScript, SQL

Web & Backend: React.js, Node.js, Express.js, FastAPI, Flask, REST APIs

Databases: SQL, MongoDB, MySQL, PostgreSQL, Cloudant NoSQL

AI & Data: NLP (TF-IDF, Cosine Similarity), Pandas, NumPy, Scikit-learn, PyTorch

Tools & Practices: Git, GitHub, Agile/SDLC, VS Code

CERTIFICATIONS

- IBM SkillsBuild - AI Developer & Cloud Application Internship
- Accenture Software Engineering Job Simulation (Forage)
- British Airways Data Science Job Simulation (Forage)
- Cisco Networking Academy - Introduction to Cybersecurity
- Infosys Springboard - TechA Data Visualization using Power BI
- Infosys Springboard - TechA Network Hacking Prevention Foundation
